### MASTER CLASSES 2020

**FEBRUARY 20**
*Aristides Senra*
Create your start-up from the University

**FEBRUARY 24**
*Ane Iturzaeta & Alberto Molina*
IoT Make it real with Azure IoT Accelerators

**MARCH 2**
*Raúl González*
Certification Techniques for Smart City and Connected Driving Devices

**MARCH 9**
*Alberto Lopez*
Security in IoT: Network approach for telco providers

**MARCH 13**
*Álvaro Pérez*
Prototyping workshop with Altair SmartWorks

**MARCH 16 @ 17:30**
*Juan Pedro García*
Data Revolution in the automotive sector

**MARCH 16 @ 18:45**
*Raquel López Alarcón*
Onesait Platform: the IoT Big Data OpenSource and its application to the business

**MARCH 23**
*Matias Cascallares*
What is Elasticsearch and why does it make sense for IoT scenarios?

**MARCH 26**
*Vangelis Foukalas*
Monetizing IoT network multivendor

**MARCH 30**
*Pedro Guerra*
Gathering data from IoT devices using serverless techniques and Domain Driven Design

**APRIL 17**
*José María Lillo-Castellano*
Artificial Intelligence to Reduce Cardiac Diseases

**APRIL 20**
*Alejandro Delgado*
IA for IoT Applications in the cloud environment

**APRIL 22**
*Rodrigo Merino*
Scaling your IoT project with AWS IoT

**APRIL 24**
*Gonzalo Bernal*
Modelos realistas de negocio con IoT en empresas que conocemos de verdad

**APRIL 27**
*Alfonso Martín Rey*
Digi Xbee3 Ecosystem for IoT

**MAY 4**
*Jörg Domaschka*
IoT Trends. The near and far future of IoT
